PROFILE

First-year Master's student at INSTA, I am looking for an apprenticeship contract in fullstack and AI development. With more than 2 years of development practice at EPITECH, I have worked on web projects, API design, data pipelines and the deployment of machine learning models. I want to put this experience to work on technical projects within a team.

PROFESSIONAL EXPERIENCE

Jan. 2024 – Jul. 2026: **EPITECH**

❖ ***Teaching Assistant — Fullstack / Data-AI Developer & Trainer***

- Built internal tools:
  - ➢ **BlueLock** (React): Worked on the challenge display of the school's CTF platform.
  - ➢ **Simulated streaming API** (Python, FastAPI): Built to train sentiment analysis models.
  - ➢ **Academic tracking dashboard** (Node.js, Express.js): Developed the user authentication and authorization module; co-designed the data model.
- Trained cohorts of students (WECODE and Talent4Startup programs) in Full Stack, Data and AI.
- Reviewed code and assessed student projects (ETL, Scikit-learn / Keras, APIs, fullstack); ran hackathons.

May 2026: **African Education and Innovation Group (AEIG) / We.Code Program**

❖ ***No-Code Automation Trainer***

- Designed and ran a no-code automation bootcamp (Zapier, Baserow) for junior Product Managers.
- Created hands-on exercises to understand automation with Zapier: data flows, app synchronization.

Dec. 2022 – May 2023: **Agence des Systèmes d'Information et du Numérique (ASIN)**

❖ ***Cybersecurity Analyst***

- Ran web penetration tests (OWASP); wrote SOC reports: vulnerabilities ranked by CVSS severity, remediation actions.
- Monitored vulnerabilities and threat intelligence across the national web ecosystem; FortiSIEM monitoring.

PERSONAL PROJECTS

RAG-RH (Python, FastAPI, PostgreSQL / pgvector) **:** Built an HR assistant that answers employees' questions (leave, benefits, internal policies) from the company's Notion documents.

NearYou (Next.js, TypeScript, PostgreSQL / PostGIS) **:** Designed a PWA connecting residents with local tradespeople: interactive map, distance search, tradespeople added by the community.

Strongman 2026 (Next.js, TypeScript, PostgreSQL, Drizzle) **:** Designed a strongman competition judging application for the FIBDA (Ivorian Federation of Bodybuilding and Associated Disciplines).

United Kizdom World Congress (Laravel, Nuxt, MySQL) **:** Developed the ticketing website of an international Latin dance festival; integrated an online payment system: **FedaPay**.
